

Dear St. Stephen Parents and Families,

This message is for your information. I want you to be aware that one of our teachers that is out virtual teaching has tested positive with Covid-19 over the weekend. As you know she and her class have been on virtual remote learning since last Thursday due to a case of covid-19 in her classroom. Over the weekend our teachers were messaged concerning the new information. Teachers tested for covid-19 on their own and their tests proved negative; I also tested and proved negative. We will continue to be masked and will also continue to observe our school protocol in relation to covid-19.

Take care - and God bless our families, students and school!
