*“Living, Loving, and Learning though Christ”*

**Enrichment and Academic Support at SSCS**

Dear School Families, It is our goal to provide enrichment opportunities to our students as much as possible. Toward that end here are some updates:

\*Our soccer teams had exemplary seasons. We ended the season with a huge tournament first place finish for our I-League (Juniors) team! They won both matches this past weekend and took home the trophy! Thanks a million to our Athletic Directors – Mr. Frank and Mr. Orris – all of the coaches, Athletic Booster members and parent volunteers who made the past two weekends very enjoyable for the kids and the large crowds of fans who showed up. Photos:

\*Besides soccer, we offer girls volleyball (although this year’s girls played on St. Patrick’s in Carlson), bowling, boys and girls basketball, cross country (partnered with another school), and co-ed baseball. Hoping to get robotics going, too-have has more interest from potential coaches!

\*We now have our in-school tutor, Kim Goins, providing interventions for struggling students in math and reading! Welcome back, Ms. Goins!

\*We are one step closer to providing the similar to last year after school tutoring program using high school students. Working out logistics now. Stay tuned for that.

\*We are still looking for a latchkey supervisor. The job is posted on the AOD website or you can please call us if your are interested

Bless You All!

Respectfully, Mr. B., principal
